

Tea A Curious Party

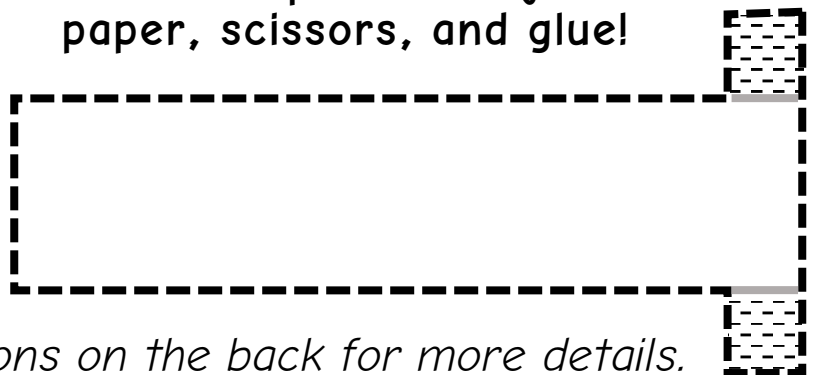

by Annika Bennett

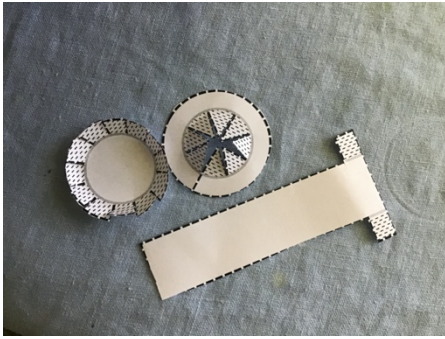

- - - = cut
- = fold
- · · = glue

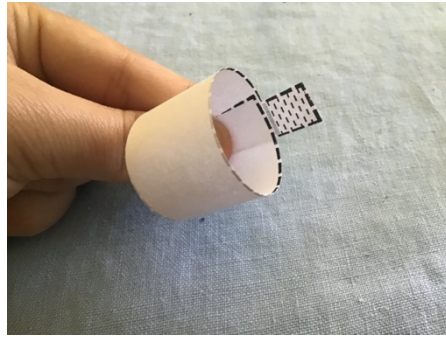

Make a top hat with just paper, scissors, and glue!

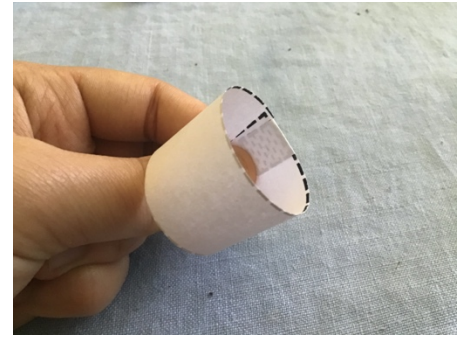

See the instructions on the back for more details.

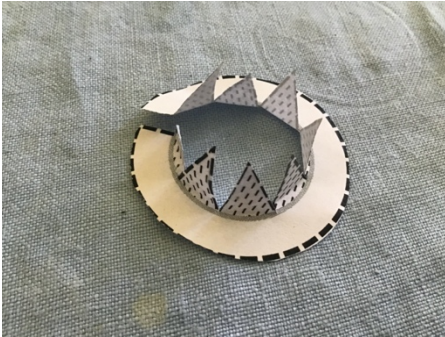

Step 1: Cut along the dotted lines*.

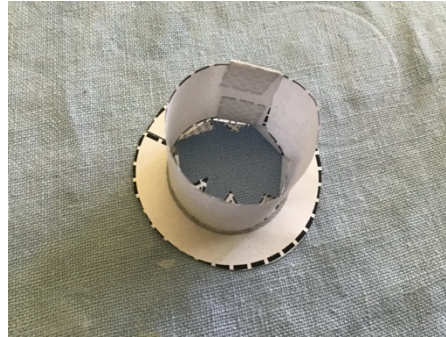

Step 2: Roll the long piece into a tube, with the end just overlapping the flaps.

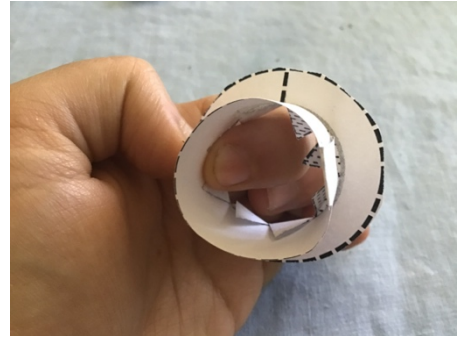

Step 3: Add glue and fold down the two flaps to hold the tube in place.

Step 4: Add glue to the triangle flaps and then fold them up to make a crown.

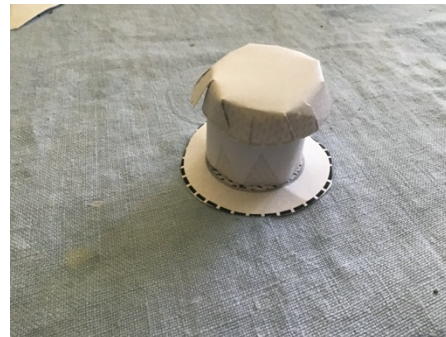

Step 5: Slot the tube on top of the crown piece.

Step 6: Press the triangles into the inside of the tube so they stay in place

Step 7: Add glue to the petal flaps and then fold them up.

Step 8: Place the piece from the last step on top of the tube.

Step 9: Press the petal flaps into the outside of the tube so they stay in place.

**Make sure to have supervision from an adult when using scissors.*
